

Hydrofera Blue READY[®] Tube Site Dressing

Polyurethane (PU) Foam Dressing

NEW

Experience the trusted reliability of Hydrofera Blue[®] with the latest addition to the family: **Hydrofera Blue READY[®] Tube Site Dressing**.

This polyurethane foam dressing, with its intuitive shape and key-hole opening, allows for precise placement and ease of application around tracheostomy tubes and other tube sites. It offers a broad spectrum of antibacterial protection.

The foam is impregnated with two organic pigments, gentian violet and methylene blue, which are effective against gram-positive and gram-negative bacteria and yeast.

Hydrofera[®] products have been proven effective against the following:

Bacteria	Yeast
<ul style="list-style-type: none"> Methicillin-resistant <i>Staphylococcus aureus</i> (MRSA) <i>Staphylococcus aureus</i> <i>Staphylococcus epidermidis</i> (coagulase negative) <i>Pseudomonas aeruginosa</i> <i>Pseudomonas fluorescens</i> <i>Escherichia coli</i> <i>Enterococcus faecalis</i> Vancomycin-resistant <i>Enterococcus</i> (VRE) 	<ul style="list-style-type: none"> <i>Candida albicans</i> <i>Candida krusei</i> <i>Candida glabrata</i>

Clinical benefits

- Manages absorption of secretions
- Broad-spectrum antibacterial protection, provided by two organic pigments: gentian violet and methylene blue
- Non-cytotoxic

Features

- Sterile, pre-cut, individually wrapped and ready to be used
- Waterproof and breathable cover film
- Semi-permeable outer film for easy cleanups and external element protection

Absorption

- Absorbs and retains exudate within the dressing
